Distributed in North America by : [Transaction Publishers](#)

This collection of essays provides a profound insight into today's discussion of feminist positions among female Spanish scholars. The focus is placed on the social and political achievements that feminism has attained since the transition to democracy in Spain.

It outlines the radical changes of the image of women. Above all, however, this reader illustrates the extent of academic research on issues of gender, which has become increasingly differentiated over the last 30 years.

Elisabeth de Sotelo

This book is a tremendous example of the dramatic development of feminism and the new status of women in Spain.

*Prof. Dr. Elisabeth de Sotelo, Psychologist, Department of the Science of Education at University of Koblenz-Landau, Founder and Director of the Women's Studies Programme at University Koblenz-Landau.
